What did men do in World War II? Did all men have to fight? When was the most dangerous time to live? How different was the Blitz?
Geography	 Can you take us on a journey around the world? To know the Tropics of Cancer and Capricorn are lines of latitude and mark the equatorial region; the countries with the hottest climates. To know the names of some countries and major cities in Europe. To know the world's different climate zones (ie polar). To know that the Equator is a line of latitude indicating the hottest places on Earth and splitting our globe into the Northern and Southern Hemispheres. To know the boundaries of the polar regions are marked by the invisible lines the Arctic and Antarctic circle. To name and know the features of four contrasting counties of the UK. 	 Why is Antarctica uninhabitable for humans? To know vegetation belts are areas of the world which are home to similar plant species. To know that physical features means any feature of an area that is on the Earth naturally. To know that human features means any feature of an area that was made or built by humans. To know the world's biomes i.e., Polar regions. The Arctic is the Northernmost part of the planet whereas the Antarctic is the southernmost. The Artic circle is an imaginary circle around the North Pole Antarctica is quite a 	How are rivers formed? Map of the world and of the UK – naming the most significant rivers including the five longest rivers of the UK Journey of a river: from source to sea. Mapping the River Severn – including a focus on map work and grid references. Flooding impact of major flooding and how we prepare against flooding. Fieldwork - River Rea in Cleobury Mortimer. Field sketch of middle and lower river course. How is the river formed, meanders, erosion, speed and velocity, following the route of the river. Benefits and threats of living by a river. The impact of flooding on local residents. Data analysis from field work How we use and manage rivers.	 Energy: How do we energise our homes and country? Know about some of the human features related to the UK, e.g. industry and environment Know about the importance of power in our lives Know how important electricity is for homes and industry Know what is meant by fossil fuel Know some types of renewable energy Know why it is important to find more environmentally friendly sources of energy 	France: Can you take us round Europe? To know the names of some of the world's most significant rivers. To know the names of some countries and major cities in Europe. To know that physical features means any feature of an area that is on the Earth naturally. To know that human features means any feature of an area that human features means any feature of an area that was	How does the weather affect tourism? •To know the names of some of the world's most significant mountain ranges. •To know the Tropics of Cancer and Capricorn are lines of latitude and mark the equatorial region; the countries with the hottest climates. •To know the names of some of the world's most significant rivers. •To know the names of some countries and major cities in Europe. •To know that nearly settlements would have been by water sources such as rivers. •To know the world's different climate zones (ie polar). •To know that the Equator is a line of latitude indicating the
